

PROVIDING STUDENTS WITH INDUSTRY EXPERIENCE IS INVALUABLE BUT WE ALSO LEARN THROUGH THE EXPERIENCE

NEW TALENT INJECTS NEW ENERGY

EDF Energy Nuclear Summer Internship

EDF Energy is a core part of the EDF Group and is one of the largest energy companies in Europe. We are the UK's leading generator and supplier of low carbon energy. We have a focus on safe, dependable energy generation and an ethos of service excellence.

Cris Martinez, Human Resources Manager said

"Providing students with industry experience is invaluable, not only is it an essential element in their learning but as a business we also learn through the experience and inspire our future work force."

THE CONTACTS
I MADE AND THE
NEW SKILLS I
DEVELOPED WILL
BE A GREAT ASSET
GOING FORWARD.

Bryony Ayre University of Glasgow

3rd year,
BEng Product Design Engineering

I was based within the Quality Management Department at Torness Power Station working with engineers from a range of backgrounds to manage technical safety across the site.

I worked closely with the Fire Safety Team to develop and implement a new system for monitoring complex fire systems across the nuclear site and was responsible for the introduction of new process planning tools for the team. My placement was hugely rewarding and gave me a unique insight into how different engineering disciplines work together to implement change. I learned a lot from the more experienced engineers.

Having relevant experience is incredibly valuable and will definitely help me stand out to future employers.

The contacts I made and the new skills I developed will be a great asset going forward.
